

MR3457-44  
Appln. No. 10/674,153  
Reply to Office Action dated 9/11/2006

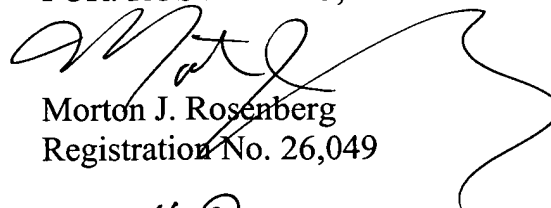

Remarks/Arguments

This case has been reviewed and analyzed in view of the Official Action dated 11 September 2006. In the Official Action, the Examiner has found two Groups and ten Species, namely, Group I directed to Claims 1-13, 25, 27-28 and 31 drawn to Method I; and Group II directed to Claims 14-24, 26, 29-30 and 32 drawn to Method II. The Examiner has required Applicant choose one Group for further prosecution and further one Species from that Group.

By this Amendment and Response, Applicant elects Group I directed to Claims 1-13, 25, 27-28 and 31 and further elects Species III, Fig. 1G directed to Claims 8, 10, and 12-13. Thus, Applicant elects Claims 1, 8, 10 and 12-13. Claims 2-7, 9, 11 and 14-32 have been withdrawn.

It is now believed that the subject patent application has been placed in condition for examination and such action is respectfully requested.

Respectfully submitted,
